

Apple Health Core Connections Overview

Are you connected to a youth in foster care, adoption support, alumni of care, or a reunified family? Have you ever felt like the health care system should be easier for that youth? If so, this overview is for you. It will give you the tools you need to help navigate the health care system. Apple Health Core Connections (AHCC), a program of Coordinated Care of Washington Inc., provides Apple Health (Medicaid) benefits for foster, alumni, and adopted youth. This overview shares:

- How to get the most out of covered physical and behavioral health services
- What to do if you face barriers and
- Details about added benefits like video chat appointments with a provider and getting paid for preventative care.
